

SPORT GRILLE GUARD

"Sport Grille Guard" is made with the same quality as the Legend, but the grille insert portion is omitted for you to mount your favorite off road lights on the pre-drilled light bar. Fully welded grille guard with a wrap around loop design.

PUSH BAR

"Push Bar" is a great product for those looking for a little front end protection. The uprights extend from top to bottom and can be equipped with optional rubber upright pads. The predrilled light bar holds from 2 to 4 6" lights. Frame mounted for added strength.

GUARDIAN SERIES PUSH BAR

"Guardian Series Push Bar" is specifically designed for the emergency vehicle; it is a frame mounted 1 piece welded design. Comes standard with rubber upright pads and a predrilled light bar that can hold 2 to 4 lights. Shown with optional bolt on loops.

JEEP PRODUCTS

"Jeep Bullnose" fully welded formed channel 1 piece design comes standard with a built in 2" receiver, shackle bracket mounts, and durable powder coat finish. Optional Winch Plate for mounting a number of Warn winches: XD9000, 9.5ti, 9.5si, and the Powerplant HP.

"Jeep Back Bumper" made from hefty formed channel comes standard with lights, shackle bracket mounts, and built in steps on sides.

LEGEND BACK BUMPERS

"Legend Back Bumper" sets the industry standard. It is V-5 tested to 1000 lb. tongue weight and 10,000 lb. towing capacity or 500 lb. tongue weight and 5000 lb. towing capacity depending on the model. This bumper will accept a bolt on receiver tube (which will reduce the tongue weight to 500 lbs. & the towing capacity to 5000 lbs.) Optional back up/work lights available with 10" drop only. Some makes and models retain factory reverse sensors and factory receiver.

SPORT BACK BUMPERS

"Sport Back Bumper" is a durable black powder coated bumper made from formed channel, has diamond plated step plates, and standard backup/work lights. Depending on the model, the end cap has a built in step and some makes and models retain factory reverse sensors. Must be used with the factory receiver.

DUALY BACK BUMPERS

"Dually Back Bumper" is a full wrap around rear bumper for Dually model trucks. Available only with a 10" drop and backup/work lights are a standard feature.

STEPS

The frame mounted Ranch Hand Steps are made of 1 1/2" pipe. They feature 20" of step area with punch plate that matches the grilles on our Ranch Hand grille guards and Front Bumper Replacements.

BOLT-ON RECEIVER

Bolt-On Receiver fits the Ranch Hand Legend & Dually Back Bumpers. Adding the bolt on receiver will reduce the tongue weight to 500 lbs and the towing to 5000 lbs. Allows a 2" receiver hitch.

HEADACHE RACK SYSTEM

The Ranch Hand louvered "Headache Rack" comes in two styles: Standard 2" and the Hauler with lights. Both styles are made of heavyduty square tubing with or without window cut and must be installed with short or long rails. Light duty headache rack option available.

Hauler with Lights
Window Cut

Full Louvered
2 inch

RAILS

"Bed Rails" are made of 12 gauge diamond plate with a glossy black powder coat finish and contours to protect the edge of the truck bed. Optional tie down rail is beveled on each end. These products must be used with the Headache Rack System.

TOOLBOXES

Ranch Hand Tool Box design features include "anti-theft" recessed lock receivers, diamond plate steel, and triple hinged oversized lids.

LEGEND FRONT BUMPERS

Dodge
2500/3500
2010

"Legend Front End Replacement" known for its legendary quality is manufactured with 4" Schedule 40 Pipe and provides maximum protection for your vehicle. It is designed to take an impact both on and off the road and comes standard with a 2" receiver. Field tested in extreme conditions, this is the toughest product on the market today. Most applications retain factory fog lights and tow hooks.

SUMMIT FRONT BUMPER

Chevy
7.5-10

"Summit Front End Replacement" is sturdy but lightweight and built with 12 gauge diamond plate steel. The optional H2R (hidden 2" receiver) can be added at any time without having to remove the front bumper replacement. This series also retains the factory fog lights & tow hooks.
